## PREFACE

*Crime In Illinois, 1996* marks the twenty-eighth year that the Illinois State Police has published annual crime statistics for the state. There are 901 agencies who report their data directly to the Uniform Crime Reporting Program. Once again, we are proud to announce 100 percent reporting compliance from these departments. I would like to thank each participating agency for your continued cooperation in reporting crime statistics. It is your dedication that allows us to publish *Crime In Illinois* in a timely fashion.

This publication includes a new section detailing information involving specialized crime data. The collection of this information, Domestic Violence, Crimes Against Children, Attacks Against School Personnel and Hate Crime was implemented on April 1, 1996 to ensure full compliance with the Illinois Compiled Statutes. The statistics provide insight into today's rising problems in these specific areas of concern on a state and national level.

With appreciation and thanks to all who have contributed to this publication, I present *Crime In Illinois, 1996*.

# INTRODUCTION

PART II

## **The Illinois Uniform Crime Reporting Program**

The Illinois Uniform Crime Reporting Program was developed in 1971 and implemented on January 1, 1972. The Illinois State Police was given the responsibility to be the central repository for collecting crime statistics.

Reporting crime statistics is mandated by chapter 20 Illinois Compiled Statutes 2630/8.

*2630/8. Crime Statistics.* The Department shall be a central repository and custodian of crime statistics for the State and it shall have all power incident thereto to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all units of government.

Reporting agencies submit data on a monthly basis to the Uniform Crime Reporting Program. Participating jurisdictions include villages, municipalities, counties, colleges, universities, park districts, railroads, forest preserves, hospitals, and other miscellaneous agencies throughout Illinois.

On January 1, 1992, the Revised Illinois Uniform Crime Reporting Program, operating under the Federal Bureau of Investigation's new National Incident Based Reporting System criteria became operational. Due to reporting and collection problems, the Revised system was suspended, effective December 31, 1994. While the program continues to be evaluated both on a statewide and national basis the Illinois State Police implemented a simplified collection methodology. Data collection is captured and provided to the Illinois State Police on a Monthly Crime Index Form (see Section VIII Appendix). Crime index offenses, crime index arrests and drug arrests are required to be reported by local law enforcement agencies. In 1996, the Illinois State Police began the collection of additional crime statistics mandated by state statute. These include: Domestic Violence, Attacks Against School Personnel and Hate Crimes. Crimes Against Children are also being reported to the Uniform Crime Reporting Program.

Please note, the 1995 figures reflected in this publication are not comparable with those figures published in Crime in Illinois 1995 due to late and/or adjusted data.

## Considerations for Interpretation

When comparing the crime statistics of one agency with another, many factors should be taken into consideration before conclusions are made. Some of the conditions affecting the type and volume of crime are:

- Population density and degree of urbanization with size of locality and its surrounding area.
- Variations in composition of the population, particularly youth concentration.
- Stability of population with respect to residents' mobility, commuting patterns and transient factors.
- Modes of transportation and highway system.
- Economic conditions, including median income, poverty level and job availability.
- Cultural factors and educational, recreational and religious characteristics.
- Family conditions with respect to divorce and family cohesiveness.
- Climate.
- Effective strength of law enforcement agencies.
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional and probational).
- Citizens' attitudes toward crime.
- Crime reporting practices of citizenry.<sup>1</sup>

**I-UCR Reporting Agencies  
1996**

In 1996 there were 1,098 law enforcement agencies in Illinois, of which 901 reported crime statistics directly to the Crime Studies Section. The remaining agencies reported their crime statistics through an intermediary agency (sheriff's office, police department, etc.).

## The Crime Index

The Crime Index is the total number of index offenses occurring within a given jurisdiction during a specified period of time. It is used to indicate the amount and extent of serious crimes as defined by the International Association of Chiefs of Police Committee on Uniform Crime Reports. The Crime Index consists of violent crimes - murder and nonnegligent manslaughter; forcible rape; robbery; and aggravated assault, and of property crimes - burglary; theft; motor vehicle theft; and arson.

The index crimes used by the I-UCR Program translate into the national program's eight Crime Index offenses as:

### Violent Crimes

**Murder and Nonnegligent Manslaughter** - The willful killing of a person or the death of a person caused by gross negligence of an individual other than the victim.

**Forcible Rape** - The carnal knowledge of a female, forcibly and against her will - includes attempted rape. Illinois reports criminal sexual assault offenses rather than rape offenses under this category.

**Robbery** - The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence - includes attempted robbery.

**Aggravated Assault** - The intentional causing of serious bodily harm or the intentional attempt or threat of serious bodily injury or death - includes aggravated battery, attempted murder and ritual mutilation.

### Property Crimes

**Burglary** - The unlawful entry of a structure to commit a felony or theft - includes attempted burglary.

**Theft** - The unlawful taking or stealing of property or articles without the use of force, violence, or fraud - includes burglary from motor vehicle and attempts.

**Motor Vehicle Theft** - The unlawful taking or stealing of a motor vehicle - includes attempted motor vehicle theft.

**Arson** - The willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building or any building, motor vehicle, aircraft, or personal property of another.

## The Crime Rate

The crime rate indicates the volume of crime occurring within a given population. It is defined as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

$$\frac{\text{Crime Index} \times 100,000}{\text{jurisdictional population}} = \text{crime rate}$$

The jurisdictional population can be that of a city, town, village, state, or nation.

# **SECTION I - CRIME TRENDS**

## CRIME TRENDS

### Violent Crimes/Property Crimes

Please note the following while reviewing this section:

The Downstate Offense Total is the sum of data reported by sheriffs' offices, police departments (other than the Chicago Police Department), colleges, universities and the Secretary of State's Office.

The Chicago Police Department Total is the data reported only by the Chicago Police Department.

The State Offense Total is the sum of the Chicago Police Department and Downstate Illinois.

Each category of offense information reflects data for offenses that occurred between January 1, 1996, and December 31, 1996. Due to late or adjusted data, 1995 figures reflected in this publication are not comparable with those figures published in Crime in Illinois 1995.

The 1995 and 1996 crime rates for this section were calculated using the 1994 estimated population statistics or figures obtained from a special census. The statistics indicated in this section are the most recent complete population census figures available for each year. Section II, Crime Index Offense/Crime Rate, contains a more detailed explanation.

### **Crime Index Offense/Crime Rate Data**

Caution should be exercised when reviewing and using this information. The many social factors related to crime and a community's residential population, used to calculate the crime rate, must be considered when making statistical comparisons. A community may have a small residential population but a large moving population because of a substantial number of manufacturers, motels, etc., within its jurisdiction. The large moving population attracts criminal behavior that occurs within the small jurisdiction and must be reported by the law enforcement agency. The crime rate calculation does not compensate for a moving population. The statistics can make it appear that crimes are committed by community residents when this is not necessarily true.

This section utilizes the most recent complete census population statistics available from the U.S. Bureau of Census. The 1995 and 1996 crime rates for this section were calculated using the 1994 estimated population statistics which were obtained from the U. S. Bureau of Census, Illinois Sub-County Population Estimates, released 1995. Population figures were also obtained through receipt of a special census received from the U.S. Bureau of Census or from the reporting agency.

It should be noted that each county total reflects crime data reported by police departments, sheriffs' offices, colleges and universities that are located within each county. Since the Secretary of State's Office has districts that have multi-county jurisdiction, the Secretary of State's Office totals are not reflected in the county total but are reflected in the state total.

The Crime Index Offense/Crime Rate Comparison State Total is an aggregate total of the sheriffs' offices, police departments, colleges, universities and the Secretary of State's Office.

**SECTION III -  
CRIME INDEX  
ARREST RATE DATA**

ALBERT H. BELL  
1907-1908  
ST. JOHN'S

## **Crime Index Arrest Rate Data**

The following data presented in this section reflect crime index arrests. These arrests include the categories of Murder, Criminal Sexual Assault, Robbery, Aggravated Assault, Aggravated Battery and Ritual Mutilation, Burglary, Theft (includes Burglary from Motor Vehicle), Motor Vehicle Theft and Arson. Attempted Murder is included under the Aggravated Assault/Battery category. These figures represent the total number of persons arrested.

This section utilizes the most recent complete census population statistics available from the U.S. Bureau of Census. The 1995 and 1996 crime rates for this section were calculated using the 1994 estimated population statistics which were obtained from the U. S. Bureau of Census, Illinois Sub-County Population Estimates, released 1995. Population figures were also obtained through receipt of a special census received from the U.S. Bureau of Census or from the reporting agency.

It should be noted that each county total reflects crime data reported by police departments, sheriffs' offices, colleges and universities that are located within each county. Since the Secretary of State's Office has districts that have multi-county jurisdiction, the Secretary of State's Office totals are not reflected in the county total but are reflected in the state total.

The Crime Index Arrest Rate Comparison State Total is an aggregate total of the sheriffs' offices, police departments, colleges, universities and the Secretary of State's Office.

Due to the volume of data reported, only state and county totals are published in this section.

## **SECTION IV - DRUG CRIME ARREST DATA**

SECTION IV -  
BIOGRAPHICAL DATA

## Drug Crime Arrest Data

The data presented in this section indicates the state total for criminal drug arrests. The information includes the number of persons arrested for Violations of the Cannabis Control Act, Violations of the Controlled Substances Act, Violations of the Hypodermic Syringes and Needles Act, and for Violations of the Drug Paraphernalia Act. State totals include arrests made by Police Departments, Sheriffs' Offices, Colleges and Universities, and the Secretary of State.

This section utilizes the most recent complete population statistics available from the U.S. Bureau of Census. The 1995 and 1996 arrest rates for this section were calculated using the 1994 estimated population statistics which were obtained from the U.S. Bureau of Census, Illinois Sub-County Population Estimates, released 1995. Population figures were also obtained through receipt of a special census received from the U.S. Bureau of Census or from the reporting agency.

# METROPOLITAN STATISTICAL AREAS

MSA boundaries are as defined on October 12, 1984

## Metropolitan Statistical Areas

An area qualifies for recognition as an MSA in one of two ways: (1) if it includes a city of at least 50,000 population, or (2) if it includes an urbanized area of at least 50,000 population with a total metropolitan population of at least 100,000. In addition to the county containing the main city or urbanized area, an MSA may include additional counties having strong economic and social ties to the central county. • Two of the MSAs overlap with Iowa and Missouri. Areas outside of Illinois that are included in an MSA are not represented in the statistics presented here. In some cases, the percentages may not equal 100 due to rounding.

### MSA Summary

The MSA summary includes MSA Large Municipalities, MSA Small Municipalities and Rural Areas Inside MSAs. The inhabitants of the large and small municipalities and rural areas that comprise the state's MSAs account for 83.1 percent of the state population. The total MSA index crimes account for 89.9 percent of the Illinois Crime Index.

**DOMESTIC VIOLENCE  
CRIMES AGAINST CHILDREN  
CRIMES AGAINST SCHOOL PERSONNEL  
HATE CRIME  
DATA**

In April 1996, the Illinois State Police began the collection of additional crime information. This data includes statistics pertaining to offenses mandated by state statute and offenses concerning children. The following data in this section reflect crimes having occurred from April 1, 1996 through December 31, 1996.

### **Domestic Violence Data**

The following data in this category reflect crimes which are domestic related. Domestic Violence is mandated by Illinois Compiled Statutes Chapter 2630/5.1. Domestic related is defined as family or household members which include spouses, former spouses, parents, children, stepchildren and other persons related by blood or marriage, persons who share or formerly shared a common dwelling and persons who have or allegedly have a child in common. In the case of a high-risk adult with disabilities, family or household member includes any person who has the responsibility for a high-risk adult as a result of a family relationship or who has assumed responsibility for all or a portion of the care of a high-risk adult with disabilities voluntarily, or by express or implied contract, or court order.

### **Crimes Against Children**

Although this category is not mandated by state statutes, information is collected to research and evaluate the problems of offenses against children. Contributing agencies are not required to report this data to the Uniform Crime Reporting Program. This information is optional and is submitted voluntarily by the reporting agencies. All crimes committed against children 16 years and younger are included in this category.

### **Crimes Against School Personnel**

The reporting of attacks on school personnel is mandated by Illinois Compiled Statutes Chapter 105 5/10-21.7. The Uniform Crime Reporting Program collects all crimes committed against teachers, teacher personnel, administrative personnel or educational support personnel. These persons can include teachers' aids, bus drivers or janitors etc. whom are employed by the school.

### **Hate Crimes**

The reporting of Hate Crime information is mandated by Illinois Compiled Statute Chapter 2605/55a. A person commits hate crime when, by reason of the actual or perceived race, color, creed, religion, ancestry, gender, sexual orientation, physical or mental disability, or national origin of another individual or group of individuals, he commits assault, battery, aggravated assault, misdemeanor theft, criminal trespass to residence, misdemeanor criminal damage to property, criminal trespass to vehicle, criminal trespass to real property, mob action or disorderly conduct.

## **Law Enforcement Officers Killed**

During 1996, two Illinois law enforcement officers were killed by felonious acts. A brief narrative on the circumstances surrounding each death is presented below:

### **MARCH - CHICAGO POLICE DEPARTMENT**

On March 22, 1996, a 40-year-old off-duty police officer with three-years experience in law enforcement responded to a disturbance in his apartment building. The officer, Dell Fountain, confronted the offender, a guest visiting in the building, to discuss the disturbance and a struggle ensued. During the struggle, the offender obtained the officer's weapon and shot him. The suspect was arrested.

### **OCTOBER - KANKAKEE POLICE DEPARTMENT**

On October 17, 1996, a 26-year-old police officer with over one-year experience in law enforcement was conducting a routine traffic stop. The officer, Anthony Samfay, was returning to his vehicle when the offender fired a .357 magnum, striking the officer five times. The suspect was later apprehended and arrested.

## Law Enforcement Employment Information

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{number of employees} \times 1,000}{\text{jurisdictional population}} = \text{employment rate}$$

### EXAMPLE:

A department with 60 employees in a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants:

$$\frac{60 \times 1,000}{51,000} = 1.2 \text{ per 1,000 inhabitants}$$

Law enforcement employment rates should not be correlated with index crimes; non-index offenses or the service related activities performed by law enforcement officers. Service related activities account for over 80 percent of the officer's workload which usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

The 37,294 part- and full-time sworn officers in 1996 account for 73.9 percent of the entire state of Illinois law enforcement community's work force. The 1996 employment rate for sworn employees of the entire state of Illinois law enforcement work force is 3.2 per 1,000 inhabitants. The 10,174 civilian employees comprise 20.2 percent of the entire state of Illinois law enforcement community's work force, with an employment rate of .9 per 1,000 inhabitants. The 2,985 auxiliary officers in 1996 account for 5.9 percent of the entire state of Illinois law enforcement community's work force, with an employment rate of .3 per 1,000 inhabitants.

The 28,565 part- and full-time sworn officers in 1996 account for 77.8 percent of the police department work force. The 1996 employment rate for sworn employees of police departments is 3.0 per 1,000 inhabitants. The 6,257 civilian employees comprise 17.0 percent of the police department work force, with an employment rate of .7 per 1,000 inhabitants. The 1,903 auxiliary officers in 1996 comprise 5.2 percent of the police department work force, with an employment rate of .2 per 1,000 inhabitants.

The 3,764 part- and full-time sworn officers in 1996 account for 57.1 percent of the sheriffs' offices work force. The 1996 employment rate for sworn employees of sheriffs' offices is 1.7 per 1,000 inhabitants. The 1,789 civilian employees comprise 27.1 percent of the sheriffs' offices work force, with an employment rate of .8 per 1,000 inhabitants. The 1,043 auxiliary officers in 1996 comprise 15.8 percent of the sheriffs' offices work force, with an employment rate of .5 per 1,000 inhabitants.

The 4,965 part- and full-time sworn officers in 1996 account for 69.6 percent of the miscellaneous agencies work force. These agencies include airports, colleges and universities, fire department/arson investigations, forest preserves, hospitals, other agencies, park districts, and railroads. Since miscellaneous agencies do not have a population, employment rates cannot be calculated. The 2,128 civilian employees comprise 29.8 percent of the miscellaneous agencies work force. The 39 auxiliary officers in 1996 comprise 0.6 percent of the miscellaneous agencies work force.
